MAREC Controls

Differential Privacy Noise (%)

30

SQL Table Prefix

safe_table_

Privacy & Parsing Brief

Current Noise Injection: 30%

Applies randomized mathematical fuzzing to quantitative columns while structuring unstructured text logs and parsing uploaded PDFs into clean tabular schemas.

MAREC Insights — Enterprise ETL, PDF & Unstructured Studio

Upload multi-tab Excel workbooks, CSVs, or unstructured PDFs. The pipeline parses files, structures freeform text logs, evaluates data health, and generates secure dev artifacts.

Upload Data Source (Excel .xlsx/.xls, CSV .csv, or Unstructured PDF .pdf)

MAREC_...chmark.xlsx
345.7KB

Successfully loaded Excel workbook: **10 individual tabs detected**.

Select Table / Tab / Parsed Source to Evaluate & Clean:

Revenue_Management

Enable Automated Unstructured-to-Structured Parsing on Text Columns

1. Data Health Scorecard: `Revenue_Management`

Completeness	Missing Values	Duplicate Rows	PII Risk Columns
98.4%	84	30	0

2. Comparative Review: `Revenue_Management` (1030 rows, 5 cols)
