

Cinematic Storytelling • Scenario-Based Consulting • Predictive Workforce Intelligence

The Parrot's Ledger

Luxury resorts operate in fast-shifting environments where demand, labor, and operations rarely align. MAREC Insights brings clarity to that complexity — turning PMS, POS, HR, and operational data into a story executives can act on.

Marec — The Hospitality Data Science Parrot

The parrot's name is **Marec** — the living symbol of hospitality intelligence. He represents the power of hospitality analytics and data science, giving resort data a voice for impact. Marec interprets every dataset through four pillars:

- **Descriptive Vision** — What is happening
- **Diagnostic Pulse** — Why it's happening
- **Predictive Echo-Locating** — What will happen next
- **Prescriptive Optimization** — What to do about it

Marec transforms fragmented data into a clear, compelling operational narrative.

Mark Recio — Independent Consultant

Mark Recio, MBA — Specializing in Hospitality Analytics, Data Science, and Management Consulting.

Mark is the architect behind the MAREC Insights methodology, designing the models and decision systems that power luxury resort transformation.

Together, Mark and Marec combine human consulting expertise with data-science storytelling — giving hospitality data a voice that drives impact.

Core Hospitality Analytics Capabilities

- ◆ **Revenue Management & Pricing Strategy** — rate optimization, RevPAR/ADR performance
- ◆ **Workforce & Labor Cost Analytics** — predictive staffing, scheduling efficiency
- ◆ **Guest Experience & Satisfaction Analytics** — sentiment, reviews, service recovery
- ◆ **Sales, Catering & Events Analytics** — group pace, conversion, space utilization
- ◆ **Demand Forecasting & Yield Optimization** — booking pace, seasonality, group vs. transient mix
- ◆ **Distribution & Channel Performance** — OTA mix, cost of sale, direct-booking share
- ◆ **F&B & Outlet Profitability** — menu engineering, covers, check average
- ◆ **Executive BI & Power BI Dashboards** — real-time, cross-property reporting

Cinematic Consulting Narrative

Phantom Surge — Marec uncovers hidden demand anomalies and labor inefficiencies legacy dashboards miss.

Thermal Blind Spots — Diagnostic vision reveals housekeeping bottlenecks, inventory leakage, compliance gaps, and misaligned labor ratios.

The Parrot's Symphony — Predictive workforce intelligence aligns staffing, yield, and compliance with real-time occupancy.

Outcome: Dashboards glow gold. Margins rise. Guest experience thrives. "Brawk! Insights that drive impact."

The MAREC Methodology

M	Modeling Peak Guest Demand
A	Analytical Auditing for Labor Leakage
R	Real-Time Executive Dashboards
E	Efficiency & Retention Optimization
C	Compliance Architecture

Ideal For: Boutique hotels • Luxury resorts • Island properties • Convention centers • Destination venues

Seeking: Revenue management, predictive staffing, yield optimization, workforce intelligence, operational clarity.
